INSTRUCTIONS

Step 1 - Cover the base with satin. Slip off the headband to make it easier to finish, then put it back on once covered.

Step 2 – Cut the feathers to the desired length and curl them like curling ribbon by running the back of a pair of paper scissors gently along the spine of the feather.

Step 3 – Arrange the feathers with 2 ostrich feathers and 2 peacock feathers pointing outwards, with the cut ends overlapping in the middle. Wrap the overlap of the feather spines with thread and knot it off.

Step 4 – Sew the feathers onto the satin-covered base and use a button to cover the join.
