# CRICUT MAKER CHRISTMAS VILLAGE

**i** INTERMEDIATE

## SHORT CHRISTMAS HOUSE

### WHAT YOU'LL NEED

- Cricut Maker or Cricut Explore air 2 machine
- Design space application
- Kraft Board, White - 12" x 12"
- Vellum
- Everything Else:
- LightGrip Machine Mat - 12" x 12"
- Double Scoring Wheel + QuickSwap Housing
- Adhesive for Paper
- Battery Operated Tea Light (optional)
- Hot Glue Gun and Glue Sticks (optional)

### INSTRUCTIONS

#### Preparation

Open design space and search the project "SHORT CHRISTMAS HOUSE"

If you want to alter the project, select Customize, then use the tools in the Edit panel to make changes before you cut.

#### Cut

Follow the prompts in Design Space® to cut the images from the kraft board and vellum.

Insert your scoring tool when prompted.

#### Assemble

Fold along the score lines of the kraft board.

Glue the vellum onto the wrong side of the kraft board shapes with adhesive for paper, avoiding the cut out area so that the glue is not visible from the outside on the vellum. Make sure to cover all window cutouts with the vellum.

Fold the house into shape and glue along the tabs. Make sure that the edges line up

and will not shift before proceeding to the next tab. Start with the walls and finish with the roof tabs.

If lighting is desired, only use a battery operated tea light placed in the middle of the house so that it does not touch any sides

Cut and assemble multiples or some of the other house projects to create an entire village scene!

## CHRISTMAS SCHOOL HOUSE

### WHAT YOU'LL NEED

- Cricut Maker or Cricut Explore air 2 machine
- Design space application
- Kraft Board, White - 12" x 12"
- Velum
- Everything Else
- LightGrip Machine Mat - 12" x 12"
- Double Scoring Wheel + QuickSwap Housing
- Adhesive for Paper
- Hot Glue Gun and Glue Sticks (optional)
- Battery Operated Tea Light (optional)

### INSTRUCTIONS

#### Preparation

Open design space and search the project "CHRISTMAS SCHOOL HOUSE"

If you want to alter the project, select Customize, then use the tools in the Edit panel to make changes before you cut.

#### Cut

Follow the prompts in Design Space® to cut the images from the kraft board and vellum.

Insert your scoring tool when prompted.

#### Assemble

Fold along the score lines of the kraft board.

Glue the vellum onto the wrong side of the kraft board shapes with adhesive for paper,

avoiding the cut-out area so that the glue is not visible from the outside on the vellum. Make sure to cover all window cutouts with the vellum.

Fold the building into shape and glue along the tabs. Make sure that the edges line up and will not shift before proceeding to the next tab. Start with the walls and finish with the roof tabs.

Repeat assembly steps with the bell tower portion. Glue the assembled bell tower .5" (1.3 cm) back from the front of the school house along the peak of the roof. Use your hand inside the building to provide counter pressure to prevent collapsing the roof. If lighting is desired, only use a battery-operated tea light placed in the middle of the house so that it does not touch any sides

Cut and assemble some of the other house projects to create an entire village scene!

## TALL CHRISTMAS HOUSE

### WHAT YOU'LL NEED

- Cricut Maker or Cricut Explore air 2 machine
- Design space application
- Kraft Board, White - 12" x 12"
- Vellum
- LightGrip Machine Mat - 12" x 12"
- Double Scoring Wheel + QuickSwap Housing
- Adhesive for Paper
- Hot Glue Gun and Glue Sticks (optional)
- Battery Operated Tea Light (optional)

### INSTRUCTIONS

#### Preparation

Open design space and search the project "TALL CHRISTMAS HOUSE"

If you want to alter the project, select Customize, then use the tools in the Edit

panel to make changes before you cut.

#### Cut

Follow the prompts in Design Space® to cut the images from the kraft board and vellum. Insert your scoring tool when prompted.

#### Assemble

Fold along the score lines of the kraft board.

Glue the vellum onto the wrong side of the kraft board shapes with adhesive for paper, avoiding the cut out area so that the glue is not visible from the outside on the vellum. Make sure to cover all window cutouts with the vellum.

Fold the house into shape and glue along the tabs. Make sure that the edges line up and will not shift before proceeding to the next tab. Start with the walls and finish with the roof tabs.

Only use a battery operated tea light placed in the middle of the house so that it does not touch any sides if lighting is desired.

Cut and assemble multiples or some of the other house projects to create an entire village scene!

## 5 POINT CHRISTMAS STAR

### WHAT YOU'LL NEED

- Cricut Maker or Cricut Explore air 2 machine
- Design space application
- Glitter Cardstock, Silver - 12" x 12"
- Everything Else
- LightGrip Machine Mat - 12" x 12"
- Double Scoring Wheel + QuickSwap Housing or Scoring Stylus
- Adhesive for Paper
- Hot Glue Gun and Glue Sticks
- Monofilament or Ribbon (optional for hanging)

### INSTRUCTIONS

## Preparation

Open design space and search the project  
"5 POINT CHRISTMAS STAR"

If you want to alter the project, select  
Customize, then use the tools in the Edit  
panel to make changes before you cut.

## Cut

Follow the prompts in Design Space® to cut  
the images from the glitter cardstock.

Insert your scoring tool when prompted.

## Assemble

Fold along the score lines of each cut out.  
Long score lines will be mountain folds.  
Short score lines will be valley folds. Tabs  
will be folded in.

Run a bead of your preferred glue along one  
tab and along corresponding tab. Match  
up and hold until glue has set. Repeat with  
remaining points.

Attach monofilament or ribbon at tip of one  
point to hang if desired. Enjoy!
