FROZEN FACE PAINT

e EASY

WHAT YOU'LL NEED

- BYS Face Gems, Grey
- BYS Glitter Face & Body Kit Sea Diamond
- BYS Blending Sponge
- BYS loose glitter silver 2pk
- BYS special FX colour wheel unicorn
- Face Paint Brushes

INSTRUCTIONS

Step 1 - Start by painting the outline of your design using the blue face paint.

Step 2 - Then use the white face paint to fill in the design around the forehead and eyes, blending with the blue to create an ombre effect. Use a smaller brush to have a smoother blend. Remember to wash your brush to avoid smudges and mixing the colours together too much.

Step 3 - Once the base paint layer is dry, use the white paint to create white details over the design. These do not have to be symmetrical and can be completely up to you.

Step 4 - Use the BYS colour wheel unicorn to decorate eyelids.

Step 5 - To finish add the glitter face and body kit sea diamond gems and snowflakes.
