MACRAMÉ HONEYCOMB WALL HANGING

i INTERMEDIATE

WHAT YOU'LL NEED

- 6 x CRAFTERS CHOICE Cotton Twist Macramé Cord 50M (Natural)
- 2 Packs x ARBEE Wood Round Bead 8pk, 20mm
- 1200mm x 19mm Dowel, Pine (hardware store)
- Cup hooks for hanging.

TOOLS

- Rubber Bands - to hold wrapped cords, with more taken out as needed.
- Sticky Tape can be used to wrap around the ends to prevent fraying.

Finished size: 94cms wide (not including dowel) x 160cms long.

Note - To better manage this work, you can support each end of the rod on the backs of chairs and work sitting down.

When referring to cord numbers, it is a new count from left to right to identify the working cord to use.

KNOTS USED (with Abbreviations)

Overhand Knot (OK)

Larks Head Knots on Mounting Cord (L.H. & M.C)

Alternating rows of Square Knots

Half Knot and Square Knot (H.K. & S.K)

Diagonal Double Half Hitches Left and Right. (DDHH R/L)

Horizontal Double Half Hitches Left and Right. (HDHH R/L)

Vertical Half hitch (VHH R/L)

Vertical Double Half Hitch (VDHH(L&R))

ADDITIONAL ABBREVIATIONS

WC – Working Cords, term given to cords to make knots.

FC – Filler Cords, term given to cords that knots are made around.

INSTRUCTIONS

Step 1: Cut 60 x 5 metre **WCs**.

Step 2: Attach **WC** to rod, using a **LH** knot. Total 120 **WC**

Step 3: Thread a bead on **WC** 1 then every

17th Cord to end. Secure beads in place with a Half Hitch knot on the ends, and a square knot (with single **FC**) on beads in the middle of the work.

Step 4: Skip 5 cords and work 2 **SKs** with next 8 cords (this is the middle of 2 beads) work the knots close to the **LH** knots. Repeat in the middle of the remaining 6 spaces between beads.

Step 5: Skip first 7 cords, work 1 **SK** with next 4 **WC**. Repeat in each space and work 1 **SK** in the middle of the 2 **SKs** from previous row.

Step 6: Using 2nd cord as **FC** lay diagonally below **SK** triangle to sit approx. 2cms lower, using next 7 **WCs** work **DDHHR** with each cord. Using the 16th cord as **FC**, lay on a diagonal from right to left to meet at the point, and work **DDHHL** with **WCs** 15-8. Then work an additional **DDHHL** with first **FC**. to complete the point. Repeat across work to complete 7 triangles.

Step 7: With **WCs** 8, 9, 10 & 11, work 7 **HK**, work will naturally twist a complete turn. Repeat with the centre 4 **WCs** at the bottom of each triangle point.

Step 8: Using first 4 **WCs** work a **SK** so the complete knot sits level with the bottom of the twisted knots. Skip 9 **WC**, *and work 2 **SKs** with next 8 cords, skip 8 **WCs**, repeat from * 5 more times, skip 1 more **WC** and work a **SK** with last 4 cords.

Step 9: Work a **VDHHL** with first 2 **WCs**, skip 13 **WCs**, *and work 1 **SK** with next 4 **WCs**, Skip 12 **WCs**, repeat from * 5 more times, skip 1 more **WC** and work a **VDHHR** with last 2 cords.

Step 10: Cross over **WCs** 9&10, to create **FCs** and lay cords diagonally to sit approx. 2cms below **SKs**. Work a row of **DDHHL** around first **FC** with cords 8 to 2.

Step 11: Work a row of **DDHHR** around 2nd **FC** with **WCs** 11 to 17. Cross over the 2 **WCs** in the middle of the next twist, lay cords diagonally as **FC** to work **DDHHL** knots with

WC 25 to 19 (leave **WC** 18 free), Continue to Work these sets of Diagonal Half Hitch rows, leaving centre cord free (this will be the same cord that was used for the first bead). Once complete you will have 6 Hexagonal shapes, and 2 halves on either end.

Step 12: Work 3 **VHHL** knots, with first 2 **WCs**, skip 14 **WCs**, and work a **SK** with next 3 **WCs** (just 1 cord in the middle) work an additional **HK**. Repeat the **SK & HK** with the centre 3 **WCs** of each point, 6 sets in all. Work 3 **VHHR** knots with the last 2 cords.

Step 13: Repeat Step 3 to add beads. Working an additional **VHH** on each end, and additional **HK** below **SKs**.

Step 14: Repeat Steps 4 to 6 to complete the base of these hexagon shapes with the first row of **SKs**, level with the **SKs** below the beads.

Step 15: Using first 3 **WCs**, make a **SK** (only 1 middle cord) 6cms from inverted point.

Step 16: Skip 12 **WCs**, and make a **SK** (3 middle cords) 6cms from inverted point. Repeat across work, 8 **SKs** in all.

Step 17: Using last 3 **WCs**, make a **SK** (only 1 middle cord) 6cms from inverted point.

Step 18: Skip 7 **WCs**, *and work 1 **SK** with next 4 **WCs**, 12 cms from point of hexagon, skip 13 **WCs**, repeat from * 6 more times.

Step 19: Skip 5 **WCs**, * and work 2 **SKs** with next 8 **WCs**, below previous **SK**, skip 9 **WCs**, repeat from * 6 more times.

Step 20: Skip 3 **WCs**, * and work 3 **SKs** with next 12 **WCs**, below previous **SK**, skip 5 **WCs**, repeat from * 6 more times.

Step 21: Repeat Step 19.

Step 22: Skip 7 **WCs**, *and work 1 **SK** with next 4 **WCs**, skip 13 **WCs**, repeat from *6 more times to create 7 Diamonds

Step 23: Measure 29 cms down from the bottom of the **SK** in Steps 15 to 17, and repeat the knots from Steps 15 & 17.

Step 24: Measure 21cms down from the bottom of the **SK** diamond in Steps 18-22,

repeat the knots in Steps 18 &19, then repeat Step 22 to make 7 smaller diamonds.

Step 25: Measure 22 cms down from the bottom of the **SK** in Step 23, and repeat the knots in Steps 15 to 17.

Step 26: Measure 20cms down from the bottom of the **SK** diamond in Step 24, repeat the knots Steps 18 to 22 make 7 diamonds.

Step 27: Measure 23 cms down from the bottom of the **SK** in Step 25, and repeat the knots in Steps 15 to 17.

FINISHING

Trim ends randomly across bottom and tie off with an **OK**.
