SISER CHRISTMAS GLITTER TEE

i INTERMEDIATE

WHAT YOU'LL NEED

- A blank tee or jumper
- Siser Glitter Heat Transfer Vinyl Sampler

YOU WILL ALSO NEED ACCESS TO

- Weeding tools (Tweezer and Weeder tool set from Siser)
- Siser Juliet Cutting machine*
- Leonardo® Design Studio software*
- Siser Craft Heat Press*
- Heat-resistant tape, a lint roller, and a sheet of baking paper are also recommended.

*This project can also be created using alternate equipment and software

INSTRUCTIONS

Step 1 - Choose your design. Siser's Leonardo® Design Studio comes pre-loaded with hundreds of royalty-free cut files or you can import your own designs.

Step 2 - Import your design into your cutter software and create your cut lines. This project has a bottom layer of black heat transfer vinyl, with a layer of Gitter heat transfer vinyl on top.

Step 3 - Load your vinyl into your cutting machine. Make sure your design is mirrored. Cut your design according to your machine's settings.

Step 4 - Prepare your tee by running over it your lint roller to get rid of any excess fibres.

Step 5 - Plan out where each part of your design will go on your jumper. Pre-press your jumper for 5 seconds to remove any excess moisture. Position your heat transfer vinyl, then press at 155°C for 15 seconds. Peel off the carrier, then position the Glitter layer and press for a further 15 seconds.

TAKING CARE OF YOUR PROJECT

- Wait 24 hours before washing
- Do not use bleach or any other aggressive chemical agents
